Monument files NI43-101Technical Report for Resource Estimate on Murchison Gold Project

Vancouver, B.C. Monument Mining Limited (TSX-V: MMY and FSE: D7Q1) ("Monument") is pleased to announce that, further to its press release dated February 18, 2015, it has filed a technical report describing the mineral resource estimate for the Alliance/New Alliance gold deposit on its Murchison Property in Western Australia.

The technical report is titled "NI 43-101 Technical Report on the Alliance and New Alliance Gold Deposits, Burnakura, Western Australia" and is dated April 2, 2015. It has been prepared in accordance with National Instrument 43-101 *Standards of Disclosure for Mineral Projects* and is authored by Darryl Mapleson (MAIG, FAusIMM) of BM Geological Services, the primary Qualified Person and other independent Qualified Persons. The technical report is available on SEDAR under Monument's profile at www.sedar.com and will also be available on Monument's website at www.monumentmining.com.

Robert Baldock, the President and CEO commented: "We will commence the same resource definition study on Federal City, Tuckanarra and other areas at the Murchison Project respectively in order to increase gold inventory. In the meantime, we are undertaking steps to further assess economics on Alliance/New Alliance deposits through the open pit optimization and fast track mine development including upgrading crushing circuit, advancing tailings disposal planning and commencement of heap leach engineering design, aiming to start up initial gold production."

Forward-Looking Statement

This news release includes statements containing forward-looking information about Monument, its business and future plans ("forward-looking statements"). Forward-looking statements are statements that involve expectations, plans, objectives or future events that are not historical facts and include the Company's plans with respect to its mineral projects and the timing and results of proposed programs and events referred to in this news release. Generally, forward-looking information statements can be identified by the use of forward-looking terminology such as "aims", "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements in this news release include, without limitation, statements regarding plans to conduct resource defining studies on the Murchison property, the results of any such studies, timing and details of steps to be taken to assess economics on the Alliance/New Alliance deposit and the results of those steps. The forward-looking statements in this news release are subject to various risks, uncertainties and other factors that could cause actual results or achievements to differ materially from those expressed or implied by the forward-looking statements. These risks and certain other factors include, without limitation: risks related to general business, economic, competitive, geopolitical and social uncertainties; all of the uncertainties inherent

in resource estimates and economic analysis; uncertainties regarding the results of current exploration activities; uncertainties in the progress and timing of development activities; foreign operations risks; other risks inherent in the mining industry and other risks described in the management discussion and analysis of the Company and the technical reports on the Company's projects, all of which are available under the profile of the Company on SEDAR at www.sedar.com. Material factors and assumptions used to develop forward-looking statements in this news release include: expectations regarding the estimated cash cost per ounce of gold production and the estimated cash flows which may be generated from the operations, general economic factors and other factors that may be beyond the control of Monument; assumptions and expectations regarding the results of exploration on the Company's projects; assumptions regarding the future price of gold of other minerals; the timing and amount of estimated future production; the expected timing and results of development and exploration activities; costs of future activities; capital and operating expenditures; success of exploration activities; mining or processing issues; exchange rates; and all of the factors and assumptions described in the management discussion and analysis of the Company and the technical reports on the Company's projects, all of which are available under the profile of the Company on SEDAR at www.sedar.com. Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Company does not un
